Guidance Notes on the Use of this Standard Pre-qualification Document for Works

These guidance notes have been prepared by the Public Procurement Regulatory Authority (PPRA) to assist Procuring Entities (PEs) and Applicants to understand the content and the provisions of Standard Prequalification Document (SPD) for Works under both National and International Competitive methods and other procedures as appropriate. The PE should also refer to the Public Procurement Act Cap. 410 and the Public Procurement Regulations, 2013.

The revised SPD for Procurement of Works differs with the structure of the old document in the sense that, the revised document has a dedicated section (Section IV) for the Qualification Criteria and Requirements which is no longer included in the Tender Data Sheet. The forms have also been separated into Tendering Forms (Section V) and Contract Forms (Section X) to avoid confusion as to whom (the PE or the Contractor) should complete which forms.

The SPD is based upon internationally acceptable model formats, which have been adapted to suit the particular needs of procurement within Tanzania. The STD is divided into two parts and has Seven (7) Sections, of which Section II- Instructions to Applicants must not be altered or modified under any circumstances.

The way in which a PE addresses its specific needs is through the information provided under Section III – Pre-qualification Data Sheet and in Section VII- Works Requirements.

When properly completed this SPD will provide all the information that an Applicant needs in order to prepare and submit an application. This should provide a sound basis on which a PE can fairly, transparently and accurately carry out an evaluation process on the Applications submitted by the Applicants

Parts and Sections of the SPD and how a PE should use them when preparing a particular Pre-qualification Document for Works are described hereunder

	26.3	Applicants that are conditionally prequalified will be so informed along with the statement of the condition(s) which must be met to the satisfaction of the PE before or at the time of submitting their Tenders.
27. Notification of Prequalification Results	27.1	The PE shall notify all Applicants through TANePS of the names of those Applicants who have been prequalified or conditionally prequalified. In addition, those Applicants who have been disqualified will be informed separately.

The PE will conduct the same verification for each subcontractor proposed by the successful Tenderer. If any proposed subcontractor does not meet the requirement, the PE will require the Tenderer to propose a replacement subcontractor
29. Changes in Qualifications of Applicants	29.1	Any change in the structure or formation of an Applicant after being prequalified in accordance with ITA 26 [Prequalification of Applicants] and invited to Tender (including, in the case of a JV, any change in the structure or formation of any member and also including any change in any specialized subcontractor whose qualifications were considered to prequalify the Applicant) shall be subject to the written approval of the PE prior to the deadline for submission of Tenders.
